- Race adhere to the UCI-rules. Clip pedals and shorts are therefore allowed in all classes in accordance with UCI- rules.
- The race will mirror the tempo expected at the World Cup. We recommend that no contact occurs between the parents and the riders during the race. This will be a good opportunity for both riders and parents to see if the rider can cope with this. There will be a restricted area behind the gates and it is recommended that parents do not enter this area as well as we highly recommend the riders to stay behind the area until their participation is over. We do not have guards on the day, but recommend that riders and parents take this opportunity to practice a scenario which will mirror the proper World Cup.
